Undoubtedly Bulgaria has been driven into the war by an outside force.

It would seem almost as if there were some magic potency in a two-to-one score, as the Boston Red Sox won three successive games by that margin.

Various public institutions about Bristol are set on their financial feet by the benefactions of the late William A. Lawrence, long a resident of that town. His loyalty to home institutions was shown in undoubted fashion.

The somewhat huddled community of Stanstead, P. Q., was grievously visited when fire wiped out nearly 50 buildings at a loss of \$250,000 last Tuesday. Derby Line, located just on the Vermont side of the international boundary, feels a direct interest because the two communities are almost one, being run together to such an extent that half of the main theatre building is located in Derby Line and the other half in Stanstead. In this theatre the actors and part of the audience at a performance are in Canada while the other part of the audience finds itself under the jurisdiction of the United States. We believe that the international boundary gives the greater portion of the theatre to Canada, but leaving the main entrance to Vermont. It is a curious situation to people who visit the twin communities resting on the dividing line of two nations.

FAR-REACHING NEGOTIATIONS.

The sending of another note by the United States government to Germany in which there is declaration of principle that safer places than small boats should be provided for passengers and crew in case a belligerent should destroy a neutral boat found to be carrying absolute contraband is a step forward in the

process of clarifying the rules of international usages in times of war; and the result attained therefrom will go far toward determining the final status of those rules when the war is completed and the world begins to adjust itself to conditions of peace again. Understandings reached by the United States and the various belligerent nations now will be the established bases for such determinations, and it is very vital, therefore, that the United States should press the points at this time for that reason alone, to say nothing of the demands of its own case. Hence it should be borne in mind that there is no effort on the part of the United States to harass Germany with diplomatic tangles at a time when she is most thoroughly engrossed with carrying on warfare on many widely separated fronts; the persistency of the Washington government is merely to get at the important points when they are uppermost in the mind of the world, while at the same time, of course, there is a desire to get fair treatment. The new note that has just gone from Washington to Germany on the sinking of the American steamship William P. Frye is bound to be an important document in the councils of the nations at peace, whenever that time shall come.

HOW TO CLEAR AWAY PIMPLES

Bathe your face for several minutes with resinol soap and hot water, then apply a little resinol ointment very gently. Let this stay on ten minutes, and wash off with resinol soap and more hot water, finishing with a dash of cold water to close the pores. Do this once or twice a day, and you will be astonished to find how quickly the healing resinol medication soothes and cleanses the pores, removes pimples and blackheads, and leaves the complexion clear and velvety.

Resinol ointment and resinol soap stop itching instantly and speedily heal skin humors, sores, burns, wounds and chafing. Sold by all druggists.

SOAP FOR BABY'S TENDER SKIN

The regular use of resinol soap is usually enough to prevent those distressing rashes and chafings to which most babies are subject. This is so, first, because resinol soap is absolutely pure and free from harsh alkali, and second, because it contains the resinol medication, on which so many physicians rely for skin troubles.
